

Imperial Institute of Management Science & Research

Master in Electrical & Electronics Engineering

Duration: 02 Year

Total Fee: 60,000

Semester: 1

- 1. Modern Control System
- 2. Power System Modeling and Simulation
- 3. Advanced Power Electronics
- 4. Energy Management
- 5. Modern System Protection

Semester: 3

- 1. Data Communication Networks
- 2. Mobile communication
- 3. Neural networks
- 4. Low power VLSI design
- 5. Design of semiconductor memories

Semester: 2

- 1. Advanced Electrical Machines
- 2. Digital Signal Processing
- 3. Principal of Management
- 4. Digital Control System
- 5. Electric Power Utilization

Semester: 4

- 1. Satellite Communication
- 2. Speech and Audio Signal Processing
- 3. Wireless LAN
- 4. Microwave Integrated Circuits
- 5. Project & Viva
